Applicant's election with traverse of claims 7, 8, & 12 in the reply filed on 11/15/04 is acknowledged. The traversal is on the ground(s) that the embodiments are closely linked and should be examined in the same application. This is not found persuasive because the additional embodiment would require substantial additional examination.

The requirement is still deemed proper and is therefore made FINAL.

Claims 9-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/15/04.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 appears to include a typographical error.

Claims 7 & 12 are allowed.

Claim 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art does not disclose a package including a blister sheet having a blister pocket, and an adjacent depression; a rupturable foil layer adhered to the back side of the blister sheet; and a paperboard layer adhered to the foil layer and having a tear strip having a tab, so that the tear strip can be pulled off of the foil by means of the tab, and then the foil can be ruptured adjacent to the depression and removed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
